

VORSTEINER 997 V-GT CARRERA

The 997 V-GT Carrera coupe has been enhanced with a new front bumper fascia with a replaceable carbon fiber chin spoiler. The new front bumper also features a upper radiator vent and larger front opening in carbon fiber.

The rear end of the V-GT aero package features a dual vented rear bumper cover with an integrated carbon fiber rear diffuser and built in aero fins.

To complete the aerodynamic package a new engine deck lid with an adjustable carbon fiber wing blade complements the rear of the vehicle.

The forged 3-Piece directional 5 spoke wheels accentuates the sporty nature of the coupe with its dual directional spoke design that aids in cooling the brakes.

Aerodynamic & Accessories Guide:

V-GT Front Bumper with dry carbon fiber chin spoiler
V-GT Rear Bumper with dry carbon fiber rear diffuser
V-GT Engine Deck Lid with adjustable dry carbon fiber wing
V-301 Forged 3-Piece Wheels with dual directional spokes

Perfection Redefined.
