

VORSTEINER E46 M3 COUPE | CABRIOLET

The E46 M3 coupe features lightweight carbon fiber aerodynamic enhancements to complement the body lines of this sporty sports coupe.

The front end is dressed up with a unique 1-piece carbon fiber front spoiler that is proven to improve the vehicle's aerodynamics & improve downforce and reduce lift.

The rear end of the vehicle features an aggressive lightweight replacement boot lid and a diffuser to balance the aggressive aerodynamic enhancements made in the front end of the vehicle.

Finally a sculpted carbon fiber power dome hood with a GTR lemans race designed dual ventilation openings aids in cooling the V6 engine bay for improved performance.

Aerodynamic & Accessories Guide:

GTS3 aero front add on spoiler dry carbon fiber

GTS3 aero side skirts dry carbon fiber

VRS power dome hood with dual ventilation

V-CSL aero rear diffuser dry carbon fiber

V-CSL aero boot lid dry carbon fiber

Perfection Redefined.
